

TREE MAINTENANCE

ATTACHMENT A

SABLE (Cabbage) PALMS

At this time the City of Melbourne, Leisure Services, Parks and Cemetery Maintenance Divisions have adopted a "No Trim" policy concerning Sabal (Cabbage) Palms. This decision has been due to the recent council of the City of Melbourne Beautification and Environmental Advisory Committee and the Brevard County Extension Agent.

In the event that a Sabal Palm must be trimmed as determined by management then only brown or dead fronds may be removed.

It should be understood that "New Growth Palms" (no visible trunk above ground) that may sprout in undesirable areas (i.e. traffic signs, fence lines, curbs, etc.) should be removed.
