Re: Energy Services Companies (ESCOs)

A handwritten signature in red ink, appearing to read 'Ralph', is positioned to the right of the 'From:' field. The signature is fluid and cursive.

I want to thank the BEEB for hosting the presentation by Mr. Alexander Mack regarding ESCOs. I found it to be very educational. Since then, I have received a copy of his presentation and the links he provided, which included a nice step by step guide on how to proceed. I will have future discussions with our facilities superintendent, along with various departments and management, regarding potential future projects that could use this funding mechanism. As noted during the meeting discussion, we had looked into ESCOs some years ago and did not move forward. However, it looks as if some things have changed since then and we may need to reconsider.
